EXPERIENCE

Nationwide Children's Hospital <i>Patient Accounts Professional Billing Manager</i>	Sep 2021 - Mar 2024 <i>Columbus, Ohio</i>
• Directed end-to-end revenue cycle operations, consistently meeting AR performance benchmarks and ensuring full regulatory compliance. • Managed a \$1.6M departmental budget, aligning financial planning with strategic and compliance goals. • Led cross-functional collaboration with providers, payers, and vendors to streamline billing processes and reduce claim rework. • Oversaw insurance follow-up, payment posting, and lockbox operations; leveraged analytics to improve collections and operational efficiency. • Developed and executed initiatives to strengthen team leadership and align departmental workflows with hospital goals. • Interpreted operational and productivity reports to identify gaps, drive improvements, and maintain high-quality performance. • Served as Epic Superuser; led staff training and system enhancement initiatives to improve functionality and revenue cycle performance.	
Nationwide Children's Hospital <i>Patient Accounts Professional Billing Supervisor</i>	May 2016 - Aug 2021 <i>Columbus, Ohio</i>
• Managed and developed billing staff through structured training, coaching, and collaboration with HR on hiring, disciplinary actions, and workforce planning. • Led payer collaboration meetings and internal team huddles to resolve AR issues, analyze denial trends, and accelerate revenue recovery opportunities. • Streamlined departmental policies and procedures to align with HIPAA and healthcare regulatory standards. • Generated productivity metrics for hospital reporting and performance dashboards; supported Epic upgrades and staff system education.	
Nationwide Children's Hospital <i>Payor Credentialing Coordinator</i>	Sep 2011 - May 2016 <i>Columbus, Ohio</i>
• Managed provider credentialing and re-credentialing for physicians, dental providers, and advanced practice nurses, ensuring accurate and timely payer enrollment. • Maintained and updated CAQH, PECOS, FCVS, DEA, and state licensure records, reducing processing delays and improving credentialing accuracy. • Collaborated with internal teams and external agencies to streamline credentialing workflows and uphold payer and regulatory compliance.	

- Developed dashboards and supported process improvements that decreased turnaround times and enhanced operational efficiency.

PROJECTS

Claims Attachment EPIC Functionality

2022 - 2023

Nationwide Children's Hospital

- Partnered with IS and revenue cycle teams to implement EPIC functionality for electronic claims attachments involving unlisted CPT codes and pricing modifiers.
- Collaborated with payers and clearinghouses to validate attachment formats, transmission protocols, and HIPAA compliance.
- Led end-to-end testing and trained billing and clinical teams on new workflows to support accurate and compliant claims submission.

Colburn Hill Group Advata Bot Integration

2023 - 2024

Nationwide Children's Hospital

- Conducted system analysis of EPIC workflows to identify high-volume, repetitive tasks suitable for automation (e.g., denial follow-up, document uploads, write-offs).
- Partnered with Advata engineers to demonstrate current processes and develop bots that improved efficiency and reduced manual workload.
- Created detailed documentation and test cases to support successful deployment and refinement of automation tools.

Cash Management Module Integration in EPIC

Jul 2023 - Mar 2024

Nationwide Children's Hospital

- Led implementation of Cash Management functionality in EPIC to streamline payment posting and electronic remittance (ERA) reconciliation.
- Coordinated with banking partners and IT to configure TINs, lockbox info, and payer consolidation into super payer groups.
- Designed workflows, built test scenarios, and conducted staff training to ensure accurate, efficient, and compliant posting processes.
